

To Our Patients with Insurance Coverage

It is our pleasure to file your insurance.

Your insurance is a contract between you and your insurance company. We cannot accept responsibility for knowing if your plan requires a network provider and/or prior authorization and referrals. Procedures not covered by insurance are the patient's responsibility. Insurance companies have made it impossible for us to guarantee benefits; therefore, it is your responsibility to know your plan. We will be happy to help you understand your benefits in any way we can.

Our payment options are cash, check, credit card (Visa, Mastercard, and Discover), and Care Credit options. Payment for services rendered
